Principal's Desk

Despite of all the challenges posed by the COVID -19 pandemic, the institute continued to move forward in providing meaningful education to the students by adapting to the latest educational technological techniques. This adversity has made teachers more experimental and innovative, thereby enhancing their core competence.

Taking advantage of the prevailing down surge of the Covid cases and the consequent Govt sanction, the school reopened for offline classes for the new session 2022-23, on 24th March 2022, a few days earlier than the normal April opening. All safety protocols being duly followed. The new session began with more enthusiasm than usual for both the students and the faculty members after about two years of distance learning. There was a mixed feeling of excitement and apprehensions. Presently hybrid mode is only being conducted for the junior classes, to accommodate those students whose parents had migrated to their native place for sustenance during the covid related lockdowns and are still to revert back for their child's education. This meant extra work for the teaching faculty which they happily carried out.

The post pandemic school reopening has been an opportunity for all to reinvent the learning and teaching processes while adapting to the new normal.

School Reopens After two Years .

The start of the school session seemed more overwhelming and exciting than ever before for the reason that it was reopening in the offline mode after almost two years of distance learning on online mode . For those students who are unable to join school physically 'Hybrid' teaching is still continuing.

(During those two years of online mode of teaching, students were provided with Lenovo tablets by the manage-

Work Shop on Use of Discarded Materials .

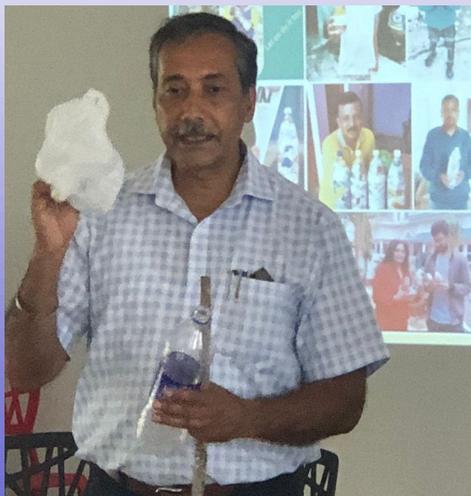

A three day Workshop was held at the institute under the aegis of Uttarakhand Pollution Control Board , where the students learnt the use of various kinds of waste materials. The students made beautiful block prints, turtles and peg dolls. Principal Dr.Puneet Basur felicitated the representatives of the Uttarakhand Pollution Control Board for conducting such a wonderful workshop.

Work Shop on Global Warming and Waste Management.

The younger generation today needs to understand the threats of climate change, our planet is facing and how this can be mitigated through individual and collective efforts. Keeping with the thought Mr. Ashish Garg and Mr.Bharat Sharma from the EcoGroup conducted a workshop for the students on the same and also taught them to make Eco bricks. They also showed interest to be associated with the institute in near future for waste management.

New Council Members take on their Responsibilities.

This year the institute celebrated the indomitable spirit of young leadership by inducting the new council members for the session 2022-2023. The event began with holding of elections for the position of the head boy and the head girl. Each candidate tried to impress the voters (fellow students and staff members) by their logical minds and conviction through their campaigning and canvassing skills. Students participated in the elections with great enthusiasm.

After that Investiture ceremony was held with lots of zeal as the new prefects were conferred with badges and sashes by the Principal, HOA and Teachers. HOA Jagdeep Kaur made the prefects take the OATH in sign language. The event concluded with inspiring words by the Principal Dr. Puneet Basur.

Resource Kit Distribution to Resource Center of Various Government schools

Keeping up with the responsibility towards the society the BIL developed a multi functional resource kit which would help the resource teachers of the government schools to teach the deaf, speech and language delayed, autistic (non verbal) students if they come across any.

The resource kit included symbol pictures, sign language images and chart, manual alphabets, speech kit, articulation files with and without pictures, DVD and pen drive with sign language content
